PERSONAL SUMMARY

I am Junior IT Systems Administrator with good analytical and software experiences of investigating and diagnosing network problems, having knowledge of IT operating systems, especially Windows, Linux, virtualization and containerization systems.

Self-driven, open and organized, I am targeting sustainable and secure solutions.

I am looking forward to the opportunities to offer my experience in systems administration and network security.

EDUCATION

Bachelor in Computer Science and Systems

EPHEC – Louvain-La-Neuve

2018

Secondary School in Computer Science

Collège Technique Saint-Jean - Wavre

2015

CERTIFICATES
